MISS VERA FELTON

and a specially selected cast in the Hilarious Comedy—by Anita Loos

NOT A PICTURE and nothing like the picture of similar title. Presented by the same great Company which played "So this is Louie" on their last visit.

If You Liked "London" You'll LOVE This.

A Perfect Rite of Laughter-compelling Situations.

PRICES—\$1.00 and \$1.00—a low seats for Children in Balcony \$0.50. Tax Extra. Seats on sale NOW at Theatre's Box Office.

Claresholm Local News

W. S. Keeley is in town this week from Banff.

Mrs. Ray Miller, in the local hospital, is reported improving.

Hans Horton, who is in the hospital, is reported improving.

Mrs. D. E. McClary has gone to Calgary for a ten days' visit with her mother.

Master Donovan Dow was taken to the local hospital on Monday for a surgical operation.

Isabel Reid, daughter of Mr. and Mrs. Earl Reid, who is in the local hospital, is reported improving.

R. N. Beattie will shortly move his family to Stavelly where he has opened an inventory business.

J. M. Paterson is preparing to open a meat market in the room first door south of the Bank of Commerce.

John Dungan who has been in the local hospital for the past several weeks, was able to return home on Thursday.

Springlike weather has been on the entire past week in this part of Alberta, and the snow has nearly all disappeared.

The Catholic Women's League are holding St. Patrick's tea on Saturday, March 19. Watch for further announcement.

The Galt Club's last bridge party of the season will be held in the J. O. O. F. Hall on Thursday evening, March 3rd.

The ladies of Claresholm U. E. W. A. No. 204 are holding a tea and sale of aprons on Saturday, March 12th, at the rest room.

Her many friends here are sorry to learn of the serious illness of Mrs. J. B. Boese, at Coramaton, and join in wishing her a speedy recovery.

Mrs. Wm. Foote of Stavelly was brought to the hospital here on Tuesday to undergo a surgical operation. She is reported progressing favorably.

School of Agriculture minstrels, styling themselves "The Kool Kollege Koons," are putting on their annual show on the 28th, to be followed by a dance.

Laura LaPlante in "The Tenser" from the Wm. A. Brady stage success by Adelaide Matthews and Martha M. Stanley, at the Rex theatre Friday and Saturday nights this week.

Remember the big horse sale at Claresholm on February 28. A lot of good farm horses and some good young mules will be sold.

Full particulars of this sale will be found on another page of this paper.

Stavelly theatre goes do not appear to have been much more favorably impressed with the "Golden Gulch" show than were Claresholm people, according to the writup in the Stavelly Advertiser.

Sam Whitehead has bought and is repairing the house formerly owned by J. B. Boese east of the tracks, and will move in before long. This is the house that was damaged by fire at the time it was occupied by C. W. Stewart.

Dr. and Mrs. Mullin and Mr. and Mrs. McPhee gave a very enjoyable bridge party on Tuesday evening in the I. O. O. F. Hall. There were fifteen tables in play. The prizes were won by Henry Sharples and Miss Minnie Holmes. Dancing followed the bridge. Altogether a very pleasant evening was spent.

In connection with the entertainment to be put on in the I. O. O. F. Hall on Tuesday 1st March, two comedies are being prepared and will be presented by the Footlights Dramatic Society of Claresholm, entitled "Fashionable Intelligence" and "The Bugle and the Judge."

Also to be songs by local artists. Tickets are now on sale at 75 cents.

Mrs. F. Sylvester was brought to hospital on Wednesday for an operation. She is reported as making favorable progress.

Gwen Alberta, year old daughter of Mr. and Mrs. D. E. McClary, died on Monday last after an illness of only two days with croupous pneumonia. The funeral service, conducted by Rev. R. W. Dufresh, was held in the United Church on Tuesday afternoon at 2:30.

Coronation Review—Mrs. J. B. Boese was taken to the hospital Tuesday morning suffering from an attack of appendicitis, and underwent an operation in the afternoon. Dr. Menzies, who assisted by Dr. Allen, performed the operation, claims it was one of the severest he has attended. However, Mrs. Boese is reported to be making favorable progress.

The Claresholm community horse sale will be held at the Vanhorn barn on Monday, February 28, starting at 1 o'clock. 70 head of well broken farm horses will be sold by auction.

Also eight good young mules. All who have horses listed are requested to have their horses in the Vanhorn feed barn by 3 o'clock on Saturday the 26th in order to get the horses properly arranged for the sale. Reduced barn rates. Good men in charge. A. E. Runkins, Auctioneer.

W. C. T. U. MEETING

Members and friends of the W. C. T. U. spent a very enjoyable afternoon at their regular meeting in Harrison Hall on Thursday afternoon, February 24th.

To establish a perpetual memorial for their great leader, Frances E. Willard, the W. C. T. U. of the United States and Canada plan a special program for their February meeting when the missionary aspect of their work is stressed and the offering is used to augment their missionary funds.

Mrs. Sturgeon read appropriate scripture and quoted several passages marked in Miss Willard's own bible.

Miss Blaine gave an interesting review of the founding of the World's W. C. T. U. and of the Polyglot Petition drawn up by Miss Willard in 1884 and circulated among the women of all nations till more than a million names are attached. Besides this over five million persons are represented by signatures of officers of organizations in various countries. This petition asks that the laws of the countries to which it is presented shall be elevated to the Christian standard of morals. During Miss Willard's life time it was presented to the government at Washington and to the British Parliament in England. Shortly afterward it was presented to the Canadian government and at the present time it is on its way across the Pacific with Miss Anna Gordon, worlds president, who will present it to the governments of Japan and China in May of this year.

Mrs. McKinney gave some items of interest regarding the progress of the W. C. T. U. in countries of Asia, Europe and South America.

Our own missionary effort in this province was given a letter read from the worker in the rural Ruthenian colony in the northern part of the province who is supported by the provincial W. C. T. U.

A pleasing feature of the program was the rendering of two beautiful solos by Mrs. Grumby and Mrs. A. Amundsen.

Three new members were introduced and welcomed to the society.

An announcement of local interest was made. In the provincial essay competition of last year the first prize was awarded to Cecil Brandvold who was here a student in Grade XI, but is now studying in Calgary.

Congratulations are due to Cecil and the Claresholm High School.

Refreshments were served by Mrs. Calahan's group.

COUGHS THAT PERSIST

You cannot afford to let an ordinary cough hang on and when they become deep-seated prompt treatment is necessary.

NYAL CREOPHOS

Explorers Tells Of Weird Experiences

Says Deep Sea Horrors Make Nightmare Scenes

"You may have the worst possible nightmare," could be in the imagination all that is hideous; think of all that is repulsive and loathsome and you shiver at your very thoughts; and yet there are creatures living beneath the seven seas which are more terrible and more grotesque than the greatest stretch of the imagination."

So said Mr. Mitchell-Bell, the explorer, during his broadcast talk, on the horrors of the deep and to the imagination of his listeners he related some of the weird experiences which befell him and Lady Richmond Brown during their two years' big game hunting in Central America.

The largest fish he ever looked was a hideous shark, weighing about 5,700 pounds. He and Lady Brown were captured, five hours in killing and bleeding. Another fish, called the Caribbean, resembled a bird more than a fish.

"It is proved to be a hog or wild pig—measuring," said Mr. Bell, "from the tip of the nose to the end of the long, whip-like tail, 12 1/2 feet, and eight feet across the body. Its weight was 60 pounds. The tail itself was 8 1/2 feet long."

"Nature has provided the inside of the mouth with crushers, capable of such power and force that it can pick up that large mackerel, he could, which would mean pounds and pounds of shell, which it takes a man all his strength to break with a tanner's mallet."

"It eats the pulley, the pulley and splits up the shell. The tail is armed with four long daggers, earned and barbed at the tip. The fishhook is a terrible weapon, with which to be struck."

"We have obtained," he went on, "some extraordinary specimens. One is a crab, known as the 'Silky Crab.' Whenever it is approached, it covers its face completely with its claws, which fit so perfectly into the trench that it becomes indistinguishable from a mound of coral rock."

Large Lands For Fur Farming

Marsh Areas Now Available in Northern Part of Saskatchewan

Arrangements have been completed between the Saskatchewan and the Dominion governments for the leasing of marshlands for fur farming purposes by the Provincial authorities. According to the Provincial Minister of Agriculture large areas of marshlands owned by the Crown are available for leasing in the northern part of the province and the completion of the negotiations between Federal and Provincial governments means that applications may now be received by the Saskatchewan authorities from individuals desiring to take up large lands for fur farming.

Homesteading in Alberta

1,201 Entries Made at Dominion Land Office in Edmonton

Completing the latest year in this respect shows previous data. Recent records brought the total of homestead entries to the Edmonton district for 1926 to a figure almost double that of the previous year. Statistics compiled at the Dominion Land Office show that 1,201 homesteads and 102 soldier grants were filed in the twelve month period ending with the calendar year, as compared with 887 homestead entries and 81 soldier grants the year before.

Saving the Trees

If people would live on fish, spruce and cabbage they would never have any use for a dentist. This is the discovery and deduction of a Vienna, Austria, University of Vienna. Neurologists, fully with doubtless continue to call for their spruce and cabbage and keep up their spruce to the dentist. What are a few teeth against an improving appetite? Last Angeles Times.

For Farms of Alberta

After an inspection of the far farms of Alberta as a Government representative, H. H. S. Oulton reports that the industry is in a flourishing condition in this province and that it is growing rapidly. The climate, he finds, is particularly well adapted to the raising of faxes under conditions which nearly resemble those of the East.

Island Makes Stained Glass

Island in developing industry of stained glass, and its products have not only been displacing German work, Irish churches of all denominations, but have been in demand from America and the Colonies. A fashion has arisen for stained glass in private houses.

Some men are afraid of nothing but danger.

Will Always Be Friends

Former Boer Leader Says Britain Had Done Her Duty by Them

The dispatches tell of a reference incident recently in Johannesburg, South Africa, which reveals something of the attitude of the Boers in showing them in the British character. With the Earl of Athol, Governor-General of the Union, presiding, more than seventy distinguished members of the Boer War met to honor no other than General Sir Robert Baden-Powell and Commander Paul Kruger, respectively defender and assailant of Mafeking and heroes of the 217-day siege which altered the world 27 years ago.

General Baden-Powell commented on the sporting nature of the siege. The Boer leader, he said, easily might have poisoned the water supply of Mafeking, but instead he challenged the British defenders to a cricket match. The former Boer leader, riding through an interpreter, stated Britain had done her duty by the Boers, and he was glad to see the Boers as friends "in spite of the injuries of politics."

It does not merely happen that Britain and the Boers are friends of one-on-time enemies. It renders the British genius for conciliating and forgiving, and a graceful habit of friendly and well-timed gestures which do more than any quantity of words to bring unfriendly feelings and to the point of the path of the setting of dawn.

Loyalty of French Canadians

Played Great Part in Holding Canada for the British

Speaking in Toronto on "Canadian Loyalty," Mr. J. H. McCreary, M.P., St. Catharines, vice-chairman of the University of Frontier College, declared that Canada owed the fact that she was today a self-governing body to the British Empire and not a part of the United States. He said that the British Empire, and not a part of the United States, had been largely responsible in the Old Country and with the unremitting supply from India, together with the fact that people in such countries as India, China and Japan, were steadily coming more and more to be looked to more and more as Britain's chief source of supply of wheat.

A woman mother is the champion of England, having decried the men in a contest at a recent daily show in London.

Product of Motor Traffic

New Microbe Thrives on Gasoline

Says German Professor Microbe traffic has been found in a new microbe, Prof. Carl Neuberg of the Kaiser Wilhelm Institute declares. It was only a self-governing body and derives upon the drops of gasoline that fall upon the highways or collect in the margins.

His opinion that Canada's life is linked to more and more as Britain's chief source of supply of wheat.

Seed Extermination Plant

British-Canadian Shipping Enormous Quantities of Conifer Seeds Aboard

During the past year the Government of Canada, through the Hon. Mr. J. H. McCreary, M.P., handled 6,281 pounds of yellow pine seed. Three thousand pounds of this was sent to New Zealand and other consignments to Pennsylvania. Between hundred pounds of spruce seed were sent to the British Forestry Commission. In addition to the above figures the plant produced 200 pounds of spruce, 550 of hemlock, and 552 of red cedar.

Make Wrong Guess

A foot and a Yankee met in London and visited a bar together. After the Yankee had several drinks at the American's expense, he said to him: "Now have a drink of me."

"Sure," replied the other. "I guess I'll have a glass of brandy champagne."

For an instant the Scot was staggered.

"Ay, well, you can guess again," he said, laid, "and guess nearer thrice."

Alberta's Big Wheat Crop

Alberta harvested last fall the second largest wheat crop in its history. The estimate now made final by the provincial department of agriculture for the 1926 crop is 121,250,000 bushels, being an average yield throughout the province of 18 1/2 bushels per acre. The 1926 crop of wheat, and averaged 29 bushels to the acre, with many fields averaging as high as 36 and 40 bushels.

Alaskans are wondering out the possibilities of their climate for the establishment of large fur farms. One farmer has already made plans to raise 500 mink each season.

Saved Woman From Slavery

German Minister at Cautel Bought Her in Name of Government

In order to save a German woman from being sold as an open market as a slave the German Minister at Cautel was obliged to purchase her in the name of his Government, according to information received at Berlin.

Several years ago a native of Afghanistan, Abdullah Khan, who was living in Berlin, married a German girl. When the inflation period came on, he, his wife and children, returned to Cautel where the couple lived happily and prospered.

Six months ago Abdullah Khan died. When his wife applied to the court for possession of her husband's property, she was informed that as her late husband belonged to the Muslim faith of Afghanistan, his estate was not subject either to English or Afghan law.

The clan holds to the old custom that the brother of the deceased gets all the property, including his wife, which he is allowed to marry or sell. The brother offered marriage which was rejected and he then used the son's property of leaving the wife to the auction place.

The German Minister refused to discuss the purchase price but he is said to be the highest ever paid in the Cautel slave market.

Britain Requires Our Wheat

Canada Must Be Source of Supply For Old Country For Some Time to Come

Canada has got to be the source of supply of wheat for the Old Country for some time to come, according to Sir Herbert Matthews, secretary of the Central Chamber of British Agriculture. He could use very little proof of this, which he said, being largely consumed in the Old Country and with the unremitting supply from India, together with the fact that people in such countries as India, China and Japan, were steadily coming more and more to be looked to more and more as Britain's chief source of supply of wheat.

A woman mother is the champion of England, having decried the men in a contest at a recent daily show in London.

The Perfect Husband

He who goes to apologize graciously when his wife is really at fault.

The millionaire who dresses as well as his clerk is more or less eccentric.

Guardian of Mediterranean Target for Tourists

This unusual photograph of the Rock of Gibraltar was received recently at Canadian Pacific headquarters from the photographer on the company's ship Empress of Scotland which is presently on an annual cruise of the world. This famed fortress, standing guard at the entrance of the Mediterranean, has been the target of countless cameras but few pictures of the Rock have been with-out the Mediterranean in its prominence. The above photograph is a series of views in the foreground can be seen natives of the coast of Spain with their sheep grazing on the slopes of the Rock. The buildings clustered at the base of the rock are very western in construction. The Empress of Scotland sailed from New York, December 2, on a romantic voyage of over 20,000 miles, which will prevent her from returning to her home port for some time. This one great family of globe-trotters will live together for four months aboard the Empress while she visits no less than 25 countries and anchors in 26 ocean ports. Her passenger list is made up of prominent persons from Canada, United States and many also from England and the Continent, who crossed the Atlantic to sail on the Empress of Scotland.

Shoving Back Old Age

Old Fellows Are Less and Less Inclined to Be Pushed Out of the Way

We suppose Lord Balfour's activities as a statesman and author have been a fairly important feature of his life. A man who has served as prime minister and has written books on philosophy probably has earned a certain right to distinction on his record. But just at present what concerns us is the dispatch from Edinburgh which shows that Lord Balfour, instead of being pushed out of the way, is still playing his small tennis on Christmas. Snow, mind you; not the fact that he is 78 years old.

It used to be assumed that a man of 50 was reaching the age of a lean and shaggy pantaloons. A woman of 50 put her live up and retired to bed at the elderly age. But old age has been shoved back until in these modern days it is difficult to distinguish a woman of 50, middle years from her granddaughter. In Britain where men make almost a religion of age sports, Lord Balfour, noted on 30, complaints of being deprived of his tennis (which he imagines). The youngsters have better luck than the old fellows are less and less inclined to be thrust out of the way to make room for their grandsons—Karl says. Time flies.

Cleaning New York Streets

Thousands of Men Remove Snow in Few Hours

Cleaning the snow from the sidewalks of New York is a problem. It necessitates the hiring of thousands of men and the using of all kinds of modern equipment to expedite the work.

Ten thousand workers were mobilized over night to clean a recent snowfall from the sidewalks. On Broadway there were approximately two men for every blade of snow that fell, with the result that one would not know that the foot beneath a storm. The snow was hoisted in trucks and hauled away to a place where many a human footstep would find the road clear.

Welcome Proposal

Sir Francis Trench, chairman of the council of the "Come to Britain" movement, has asked Viscount Winterton, governor-general of Canada, that the movement welcome his self-appointment as official advertising agent for Canada and that he will encourage Canadian business men and others to visit Britain.

Mr. Smith—What do I smell?

New Cook—The pie, ma'am! It's burning and I can't take it out for ten minutes.

Former Refugee Is Given Appointment

Russian One Refused Admission to Canada Has Red Cross Position

Red Cross headquarters announced the appointment of St. John, N.B., Miss Olga Martindale to take charge of the St. John Red Cross Society. Mrs. Martindale, who was formerly a Red Cross worker in Russia, but came to Canada in 1923 as a penniless refugee, was refused admission to the immigration authorities, but was later taken on as an interpreter at the airport. Her services have been proven so valuable that she has received the present appointment.

A Very Rare Phenomenon

"Mock Sun" Was Seen Recently by English Aviator

Two men were seen in the sky by the pilot of an airplane while he was approaching Oxford at a height of 10,000 feet. The two men were exact replicas, he says, even to the color of the clouds around them. The Air Ministry meteorological expert at Crofton Aerodrome, after receiving a report of the pilot's experience, declared the occurrence to be a very rare phenomenon known to meteorologists as a "mock sun."

Grain Shipped to Europe

Great Britain is the Largest Purchaser of Canadian Grain

Grain left Montreal for seventeen different countries in the 1926 season. Great Britain returned to the highest extent, followed by Holland, Germany, Belgium, Italy, France, New Zealand, Ireland, Portugal, and South Africa. (Great Britain took 29,215,562 bushels or 21 per cent of the total grain shipped from the port, being also the heaviest purchaser of oats, barley and malted barley, the two largest buyers of rye.)

British Columbia Cottonwood

British Columbia cottonwood as the plant of the West is now making its latest feature in lumbering. This one match factory has just placed an order for 5,000 cottonwood logs for use in its factories. The wood is being by British Columbia University experts, to be quite suitable for the purpose, being similar to the aspen of Alberta and Saskatchewan.

Bottom—If I do work and you say you would be ready to do it.

Man—Oh, I'm not sorry, but I thought I said so.

Corn Excels Barley For Laying Hens

Results of Test at Lethbridge Experiment Station

In an effort to find a cheap non-corned food for laying hens that could be substituted for imported corn at the Lethbridge, Alberta, Experiment Station made a test comparing barley with corn in the grain ration. Forty hundred hens of different breeds were used for the experiment. To half the number the ration consisted of one part cracked corn, one part cracked barley, one part alfalfa hay, one part linseed meal, and equal parts of bran, shorts, middlings, oat-clop, meat meal and corn meal as dry mash. The other half of the flock received a similar ration, differing only in the substitution of barley for the corn both in the scratch-feed and the mash. The total quantities of salt and charcoal were added to the mash in each case. In the summer a slightly higher proportion of wheat was used than in the winter. Both pens had access to a large quantity of alfalfa hay. In winter and in the winter were given cabbage, alfalfa leaves and mangels in liberal quantities. Only water was given.

The results of the test were greatly in favor of the corn fed both as to egg production and the health of the birds. The average egg production in the penlet year was 201 eggs for the corn fed pen and 171 for those receiving barley, and when the corn ration was higher in price, the feed cost per dozen was 3 per cent less where corn was fed than where barley was fed. It was brought to light in the higher mortality of the birds given the corn diet.

Many other useful experiments were carried on at the Lethbridge Station, and are reported in the annual report of the Dominion Experiment Station at the Publications Branch, Department of Agriculture, Ottawa.

Dominion Doing Well

Canada is Facing This Year With Satisfactory Conditions

Canada is facing this year with hope, and with good reason. Conditions generally throughout the Dominion are more satisfactory than during previous years. Stable government, which it lacked for five years, finally has been established. The Canadian National railways, the largest transportation system on the globe and one of the world's greatest enterprises in government ownership, are enjoying a great increase in earnings. Its great rival the Canadian Pacific, has also enjoyed very profitable years. The mineral industries established a new record; bank clearings show a substantial gain, and the country's trade during the last year has reached a volume never before attained, with the balance in Canada's favor of more than \$200,000,000.

Song of The Frog

Lady Byng of Vimy Ridge to Trans Plant Canadian Bull Frogs to Her English Estate

Lady Byng of Vimy, wife of the former governor-general of Canada, is a great admirer of the song of the Canadian bull frog. Clyde L. Patch, a Canadian at the Canadian Museum, has made it known that while at her, Lady Byng became much interested in these amphibians. After leaving for England, Lady Byng expressed to me the desire that she be supplied with hundreds of frogs' eggs to be placed on her estate. She had also heard of the song of the "Mr. Dutch" said.

Color of Eggs Is Hereditary

It would seem that the color of poultry eggs is inherited. At least this is the result of tests made by the Dominion Experiment Station, conducted for three years at Lethbridge, Alberta, expert mental station. Mr. W. H. Fairbairn, who has been conducting the tests, has been definitely shown that in selecting male from strains having dark brown eggs, the offspring will be produced by the daughters. As uniformity of color helps materially in the marketing of eggs, as Mr. Fairbairn suggests, the selection of males from strains laying eggs of the desired tint would appear to be very important.

Patches Flag on White House

Coolidge economy has resulted in the flag at the White House being the flag on the roof. Windy winter rips the six foot bunting almost in half. The flag was torn and the flag was replaced. Flag regulations stipulate that the flag shall never be patched, and not be used as a patch. The president's military aide, an expert letter from patriotic societies protesting against the indignity.

The last Roman millionaires recently were found at Rome, Italy.

ANSWERS TO LAST WEEK'S QUESTIONS

36. The Fastest Thing on Legs?—Man has run 100 yards in 9.3-5 seconds; 200 yards in 19 seconds; Paavo Nurmi, the Finnish wonder, covered a mile in 4 minutes 10.2-5 seconds. The Whippet, a small dog, weight 10 to 20 pounds, will run 200 yards in 12 seconds; the fastest race horse covered 1/4 mile in 22 seconds, 1/2 mile in 15 seconds, a mile in 1 minute 35.2-5 seconds; the Greyhound has run 1/4 mile in 30 seconds, 1/2 mile in 56 seconds; and the Foxhound, a species of Greyhound, has been known to cover 4 miles in 7 minutes.
37. The Fastest Mechanical Conveyance?—Man has skated 200 yards in 17 seconds; a mile in 2 minutes 35 seconds; has made a quarter mile on a bicycle in 28.3-5 seconds; a mile in 1 minute 45 seconds. The greatest 24 hour run of a steamship, a 60 knots (720 miles) "Blue Bird" is a mutual mile (202 yards) a motor boat has travelled at the rate of 80 miles an hour; a motorcycle a mile in 35 seconds; the fastest run of a train was at a rate of 112 miles an hour; the fastest time of an electric car is at a rate of 110 miles an hour; an automobile has travelled a mile in 25.07 seconds. A car driven has attained a speed of 260 miles an hour; a mile in a little over 15 seconds.
38. The Strongest Man of Modern Times?—One who is as strong as the most consistent all-around athlete of modern times. He died in England about a year ago, aged 59, due to a strain received by lifting an automobile, massed in a ditch. He was born in Germany. At 16 he was a weakling, but by systematic exercise (which doubtless he developed into a veritable Sampson at 23) Among his noteworthy feats may be mentioned the carrying of a dead moose from his head to his feet, lifting a dead horse over his head, lifting a man to the top of a table on the palm of his hand, sustaining the weight of 31 people on his back at one time, with proper harness could lift three tons, wearing a strong chain by the expansive power of his chest. He was of medium height, stately build.
39. The Tallest Structure Ever Built by Man?—The Pyramid of Cheops, the largest in Egypt, was originally 282 feet high; the Washington monument, 555 feet high; the highest stone structure in the world. The Woolworth building, New York City, 60 stories high, is 292 feet. The Eiffel Tower in Paris, is the highest structure ever built, is of light steel, skeleton construction, 984 feet high; visitors carried to upper deck by elevators. A weather observatory is maintained at the top.
40. When Was the Year Without a Summer?—The year 1816 was the most noteworthy in American weather history. Various known as "Eighteen-hundred-and-froze," "No-death," "Poverty Year," and "The Year Without a Summer." In the eastern and northern states there was snow and frost every month of the year. On June 17 a snow fall of 3 inches in New Jersey, Pennsylvania and New York, and snow drifts in Vermont. Snow fell again August 30. It was not exactly a year without a summer, but a summer with some very cold weather; it averaged up some by spells of cold weather. Not enough corn ripened to furnish seed the following year. Fruits and grains of every kind were short, or wholly cut off.

41. If Lost, Could You Tell the Directions, in Daytime by Your Watch, at Night by the Stars?

Point the hour hand toward the sun; half way between the hour hand and XII of your watch, measured by the shorter distance between them, is approximately south; for example, if 8 in the morning, 10 would point south. The North Star is almost over the North Pole. It can be found by means of the stars called "The pointers," or the "Great Dipper." Of the 7 bright stars forming the Dipper, the two end ones of the bowl are the Pointers; they are about 5 degrees apart and form an excellent means of estimating star distances in the sky. In line with the Pointers and about 20 degrees from them shines "Polaris," the North Star, the most valuable star to us in the whole heavens.

42. Some Rules Concerning Chinese Personal Names?

There are but 438 family names in all China, mostly of one syllable; usually names of "dragon," "tiger," "lion," "horse," "phoenix," "wolf," "ma," "hen," "li" (pronounced Lee), "a" "plum"; "lin," "forest"; "wang," "prince"; "huang," "yellow"; "liu," "thunder." The surnames Li, Wang and Chang are as common in China as Smith, Brown and Jones with us. The Chinese and the Koreans have at least two names: one a "sing," or family name; and a "ming," or given name. The "sing" (given name) usually in two syllables, invariably follows the "sing," or surname, in both speech and writing; as Li Hung Chang, Tseng-Kao-Fan. It would be improper to speak of Mr. Hung Chang, Mr. Li and Mr. Tseng and be proper. Persons having the same surname cannot intermarry. When a woman marries, she assumes her husband's surname and retains her surname as her given name.

ODD FELLOWS HOLD ANNUAL AT HOME

The hall was well filled Monday evening when the officers and members of Odd Fellows Lodge were present to their friends.

The Blackbird orchestra played several popular numbers while the guests were assembling, and after Wm. Knight, some time, was spent in community singing, ably led by A. Laurie. Other numbers in the evening's program were as follows:

Humorous reading—Herbert Coates.

Vocal duet—Mrs. Claud Armstrong and Sylvia Hillard.

Song—Mrs. Paterson.

Reading—Mrs. Geo. Ringrose.

Vocal solo—T. F. Scott.

Song—A. Laurie.

Reading—Miss Bertha Strangman.

Song—Mrs. John Armstrong, with violin obligato by Mr. Scott.

Male Quartette—Messrs. Lantz, Thorne, Hillard and Knight.

Humorous reading—Fred Palmer.

W. G. Moffatt and Mrs. Laurie played the piano accompaniments for various musical numbers. Encores were numerous.

For the purpose of competitions the guests were formed in groups. One competition was won by the group led by Mrs. McKinney, another by the group led by Mr. Haslam; and the last, a song competition, was won by Mr. Laurie's group. Prizes were awarded the winning groups, boxes of chocolates being the prizes.

Lunch was served at about 11:30 o'clock.

The evening closed with a hearty vote of thanks to the Odd Fellows from their guests for a very enjoyable evening.

AUTOMOBILE SMASHUP

While returning from the hockey game at Macleod on Wednesday night, W. D. Munro's car, in which were also W. G. Moffatt and Eric Moffatt, was run into on one of the streets of Granum by a car driven by Frank DeMunn. It was a good clean game, resulting in a score of 1-1. W. DeMunn's car was smashed badly, being damaged to the extent of about \$200.00. DeMunn's car was also considerably damaged, though both cars were able to proceed under their own power. DeMunn was clearly to blame for the accident.

HOT DOGS

And Others

Not long ago a prominent magazine writer was lamenting that with the advent of motor cars people were suffering seriously from lack of exercise.

Yes, yes, just so, of course. But, was wonder if he ever tried to negotiate a 25 miles a day Alberta auto road, on the Blue Trail for instance, the second day after a snow storm.

Some who tried it last Sunday felt that they were getting a pretty good imitation of exercise, if not the real thing, in shoveling out of numerous snow drifts.

If copious perspiration and aching muscles are any evidence, it would pass fairly well for exercise.

In increasing the gasoline tax the provincial government announces that the additional revenue will be used for road building.

Some people can remember back to the time that municipalities were promised a percentage of the liquor revenue by the provincial government.

"The Whole Town's Talking"

Great London Success Coming to Clareholm

Much interest is being manifested in town over the return visit to Clareholm of Mr. Vernon Felton and her clever companion, who a few months ago so delighted our theatergoers with their presentation of "So this is London." This time they are coming with their latest success—"The Whole Town's Talking"—which is the reigning hit of the present London season, as it was also an instantaneous hit when presented in New York. The date here is Monday, March 7th, at the Rex theater.

It is a hilarious comedy from the pen of Anita Loos, author of that amusing success, "Good-bye Poppa." "The Whole Town's Talking" tells in a judicious manner the story of a big business man whose daughter, imbrued with romantic ideas, was not satisfied with the man her father looked upon as an ideal son-in-law to be.

This young man, his secretary, and later his partner, was a plodding sort of fellow, but with such a good grasp of the business that his partner, Henry Simmons, thought it would be a good idea to give him the family, so set about in his own way to bring his daughter, Phil, around to his way of thinking. As the young lady had expressed a preference for a "man of the world," one who knows his way about, and who keeps up to date in the "affairs of the heart," her father, by a clever ruse, makes her believe that the quiet young man is not so slow as he looks, but on the contrary has a very "literate" affair with a Hollywood star of the screen named Lettie Lythe during a business trip he had taken to California. The daughter was delighted, and all was going well, when the lady of the screen came to town on a "personal appearance" tour, accompanied by her director who was also her jealous fiancé. He hearing of the alleged "raffish" started after the "quiet" young man, and in so doing starts all kinds of ludicrous situations which culminate with a great surprise, amidst a perfect cyclone of merriment. It is just the play to brighten up this hum-drum existence with a ray shaft of light and jollity, in the hands of Miss Felton and her associates, when they appear at the Rex.

For the purpose of competitions the guests were formed in groups. One competition was won by the group led by Mrs. McKinney, another by the group led by Mr. Haslam; and the last, a song competition, was won by Mr. Laurie's group. Prizes were awarded the winning groups, boxes of chocolates being the prizes.

Lunch was served at about 11:30 o'clock.

The evening closed with a hearty vote of thanks to the Odd Fellows from their guests for a very enjoyable evening.

MACLEOD-CLARESHOLM HOCKEY 1-1 AND 4-2

Wednesday evening Clareholm hockey team and a large number of supporters went to Macleod for the final game of the play-off, which was played on rough ice. It was a good clean game, resulting in a score of 1-1. W. DeMunn's car was smashed badly, being damaged to the extent of about \$200.00. DeMunn's car was also considerably damaged, though both cars were able to proceed under their own power. DeMunn was clearly to blame for the accident.

crowd that ever attended a hockey game here. The score was 4-1 in Macleod's favor. Clareholm's first goal was scored by Powers on a pass from Hobkirk. McDonald shot the other goal on an individual rush.

Alva Alan of Staveland referred the game and handled it well. Henry Lavasseau of Pincher Creek was judge of play.

C. G. I. T. GIRLS CORNER

"As fuel is brought to the fire—So I purpose to bring my strength. My ambition, my heart's desire—My joy, my sorrow, to the fire Of humankind."

For I will tend, as my fathers have tended, And my fathers' fathers, since time began, The fire that is called The Love of man for Earth, The Love of man for Man, The Love of man for God."

Here are three ambitions for C. G. I. T. girls: 1. "I will hold on to Health," Paul reminds you in I Cor. 3:16—Know ye not that ye are a temple of God? 2. "I will seek Beauty—true Beauty—not superficial, but vital. 'The King's daughter is all glorious within.' 3. "I will give service—all my life is for the need and welfare of the world."

Next Tuesday evening is missionary night, and we will begin "The Story of Prince Rama" by Dorothy Kilpatrick.
